

STERLING HEATERS

These propeller type units combine the latest tubular heat exchanger and inshot burner technology with the quality and reliability you have come to know from Sterling.

Standard energy saving features like the direct spark ignition and power venting reduces standby losses and offers improved seasonal efficiencies. "TF" Models are certified by ETL as providing 83% thermal (combustion) efficiency.

SATURDAY HOURS:
8 AM – NOON
Begins February 11th
Ends April 28th

multicote[®] Controlled Release Fertilizer

Multicote Controlled Release Fertilizer (CRF) has a moderated initial release. Once soil temperatures reach 70 degrees Multicote slowly and continuously nourishes plants with nitrogen, potassium, phosphate and minor nutrients over 3 – 8 months based on the release type chosen.

CATALOG #	DESCRIPTION	TYPE	CLOSEOUT PRICE
045-214-416	Multicote 14-14-16	3 – 4 months	\$63.50
045-220-612	Multicote 20-06-12	8 months	\$60.00

Limited to supplies on hand.

Suggested Application Rate:

The application rate suggested is intended as a guideline based on average conditions. Increase application rate by 20% if the average soil temp is 60° F. Decrease application rate by 20% if the average soil temp exceeds 85° F.
