### T-LABELS

T-Labels are designed for use where a larger label is needed. Choose from the straight style or the angled style. The Angled T-label is great for placing near or on the ground for easier viewing. Optional black base is also available and fits all T-label stems.

#### STRAIGHT T-LABELS

## INFO STICKS

Info Sticks hold picture labels either vertically or at 45°. Label is very easily and quickly clipped into position. Over non-return prongs. The label is securely held and will not spin, be blown or pulled out easily. The label pivots on prong and the customer can read the back of the label without pulling the stick out of the soil.

## CANE CAPS

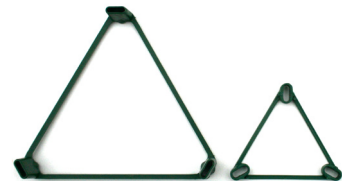

These soft rubber caps firmly hold one or three bamboo canes from 2' - 6' height for secure plant support. Cap 'N' Gro creates a simple tripod for supporting vines. Single Head Cane Cap prevents facial injury when using a single bamboo stake.

## IN-POT CANE SUPPORTS

An economical way to reduce the mess and create more saleable items. Cane Supports are designed to grip and hold canes upright and steady in pots, helping to prevent damage to plants. Once the plant is rooted, the pot may be lifted by cane for transport.

## GRO SUPPORTS

Designed to hold three canes upright, creating a column. Sized for split or standard canes.

## PLANT RINGS

Plant rings fit onto any size cane and adjust up or down the cane as required. 10" ring offers three easy open/close segments to safely secure around plant stems without damage. 6" ring offered as solid ring format.

## CLIP-ON TRELLIS GREEN

Slips easily onto the rim of most pots without interfering with the roots. Ideal for ivy, clematis and other climbers. Measures 20" above pot. Will not clip onto rolled rim pots, but may be inserted directly into the soil.

## BAMBOO-LOOK TRELLIS

This plastic trellis accents plants with it's natural bamboo look. Designed to insert into potted soil. As the plant grows, roots grip onto the trellis base making it secure enough to be lifted by the top of the trellis for easy transport.

*\*Noted height measurements are above pot*

## OBELISK

Made to look like wrought iron. These obelisks have hook type grips on the bottom of their legs to achieve a secure hold in soil. Steps up the legs allow climbers to attach easily. Two pieces snap easily together.

## TRIPODS

Economically designed with flexible legs to easily insert into soil to form a growing pyramid for vining plants. As the plant grows, it naturally secures itself to small, fine protrusions on the three legs. Top of the tripod features a lug to clip on a label and is soft enough to prevent eye injury.

## NO RUST PEGS

Ideal for holding down ground cover. NO RUST pegs are made from a black durable plastic, and feature a wide head and shank for maximum hold. Gently hammer into ground every 2-3 feet. (Rubber mallet is suggested)

## YELLOW PLASTIC WASHER

This plastic yellow washer fits both of the NO RUST Peg heads (MMP2 and MMP3) to help secure ground cover.

## POT SUPPORT BASE

Holds most pots 6.5" - 12" in diameter to stop blow over. Pots easily insert at top and are held firmly. Bases can attach to form a grid.

Stop Pot  
Blow-over!

## GROUND SHEET PEGS

Sheet Pegs keep all types of sheeting and frost covers securely in place. SP2 has an 8" prong. Easy to use, made from a durable plastic and are totally reusable. Simply drive the peg into the soil every two yards, ends are best earthed over.

## TREE SUPPORT TIES (TST)

The TREE SUPPORT TIE is designed to support and protect the tree when grown against any steel or nylon wire and non slip cord. When the tie is tightened it self grips and does not slip along the wire or cord. The tree is held firmly and it does not suffer any damage to the bark. The tie is soft, strong, black, and UV protected.

## SUPER SOFT TREE TIES (TP)

Easier to use than other tree ties, Super Soft Ties are made from soft rubberized plastic with molded grooves to prevent damage to the tree. The tie will stretch as the tree grows. Approximate life span is 10-12 years.

TP330 fastens onto crossbar with your wood screws & washers. Wraps around small - medium trees to secure in place. Ideal for garden center usage.
